

Fluigent

Fluigent develops, manufactures, and supports innovative fluid handling solutions for a variety of rapidly growing applications where precise fluid control is important. FG is the global leader in providing innovative fluid handling solutions for microfluidics, from compact microfluidic controllers for droplet generation to turnkey organ on a chip platforms. Since 2006 FG has delivered thousands of products, including the pressure pump Flow EZ™, the MFCST™-EZ (Microfluidic Flow Control System), the sensors FRP (Flow-Rate Platform) and the ESS™ (Easy Switch Solutions™) to hundreds of customers worldwide, with two subsidiaries and a strong network of distributors.

Flow EZ™: flow controller
